

# Defrost Spray

## Product properties

Defrosts windows in seconds and protects against re-icing. Defroster Spray is a de-icer and defroster with cleaning effects based on an alcohol mixture. The Defroster Spray thoroughly removes frost and ice from windscreens, outside mirrors and headlights. Suitable for standard types of glass as well as polycarbonate windscreens. The Defroster Spray contains a mixture of alcohol and glycol, and brings a clear view during all weather conditions without streaking.

## Area of application

windscreens, outside mirrors and headlights

## Application

Remove loose snow and ice with the ice scraper or hand brush. Spray from top to bottom at a distance of approx. 15 cm. In doing so, hold the container upright. The thawing effect sets in immediately.

## Consumption

5-30 ml per m<sup>2</sup>

## Reaction time

approx. 20-40 seconds

## Technical data

Physical state: liquid

Colour: blue

Odour: alcoholic

pH-Value (at 68 °F): 7,5 (DIN 53785)

Flashpoint: 26 °C (DIN 51755)

Lower explosion limit: 3,8 Vol.-%

Upper explosion limit: 19 Vol.-%

Ignition temperature: 490 °C (DIN 51794)

Density at 68 °F: <0,95 g/cm<sup>3</sup> (DIN 51757)

Water solubility: miscible

Available size	Item no.	PU
