

Power Lube Nano-Tec

Power Lube Nano-Tec

Product properties

This multipurpose lubricant forms a highly efficient NANO anti-friction barrier between the moving parts. This barrier is created by the especially formulated NANO-clusters with their extreme wear and tear protection properties.

Benefits:

- forms an extremely resistant lubrication film
- ideal for use under high-pressure conditions
- water-repellent, displaces moisture, highly adhesive
- perfectly suitable for long-term application
- extended life-span of the treated parts
- highly effective protection against wear and tear
- excellent "run-dry" properties.

Area of application

Chains, ropes, rolls, bearings, chain inner bearings, gearwheels, worm gears, joints, clutches, wire ropes, hinges, o-rings, bowden cables, locks etc.

Application

Shake well before use! Thoroughly clean the parts to be treated. Afterwards evenly spray the product onto the areas to be treated and let it take effect for a while.

Consumption

For 5-10 applications

Reaction time

Works permanently

Technical data

Physical state: aerosol

Colour: brown

Odour: mild

Density at 68 °F: 0.97 g/cm³

Water resistant

Available size	Item no.	PU
500ml	22126	12
