

DPF Top Gun Cleaner

Product properties

Diesel Particle Filter Cleaner solves and removes all soot deposition and residues without disassembly. DPF Top Gun Cleaner cleans gently and can be used on all aluminum, magnesium, zinc and cadmium parts. The product can be used perfectly for the latest generation of particle filters.

Area of application

Suitable for all diesel particle filters.

Application

Spray over the probe-hole with the special probe in the direction of the particle filter. DPF Top Gun Cleaner is applicable to all closed particle filter systems. Check oil level before cleaning. In case of oil dilution by diesel necessarily perform an oil change. Do a test drive of at least 20 minutes. If regeneration does not start automatically by the engine electronic, start it with a garage probe.

Technical data

Physical state: liquid

Colour: clear/colourless

Odour: characteristic

pH-Value (at 68 °F): 10 - 11,5

Melting point: > 0 °C

Initial boiling point and boiling range: > 98 °C

Flashpoint: > 65 °C

Density at 68 °F: 0,99 - 1,1 g/cm³

Water solubility: miscible

Viscosity / kinematic (at 104 °F): ~1,0 mm²/s

Available size	Item no.	PU
1000ml	33481	12
