

Silicone Spray

Product properties

Silicone Lube is a combination of active substances on silicone basis with outstanding glide and protection qualities. Silicone Lube eliminates unpleasant squealing noises of plastic parts and impregnates and isolates the contact surfaces. Silicone Spray is free from grease and mineral oil and leaves a dry lubricating and protecting film.

Area of application

Ideal suitable as separation, sliding -, maintenance - and preservatives for rubber, plastic, and metal. Maintenance and care product in the automotive, industrial and budgetary matters.

Application

Spray evenly and thinly onto the parts to be treated and let it dry.

Consumption

Depending on Application
